Present BY Mr.

ABOUT US

As Cambodia's premier authorized Honeywell partner since 2015, Intersys Solutions delivers international-standard building automation, security, and fire safety systems to meet the surging demands of the local construction sector through strict adherence to Honeywell quality protocols.

OUR VISION

To be Cambodia's most trusted provider of smart, safe, and sustainable building technology solutions.

OUR MISSION

- Deliver high-performance smart building and ELV systems tailored to client needs.
- Integrate world-class technology for operational safety, efficiency, and cost savings.
- Support clients through strong technical expertise and reliable after-sales service.

OUR VALUES

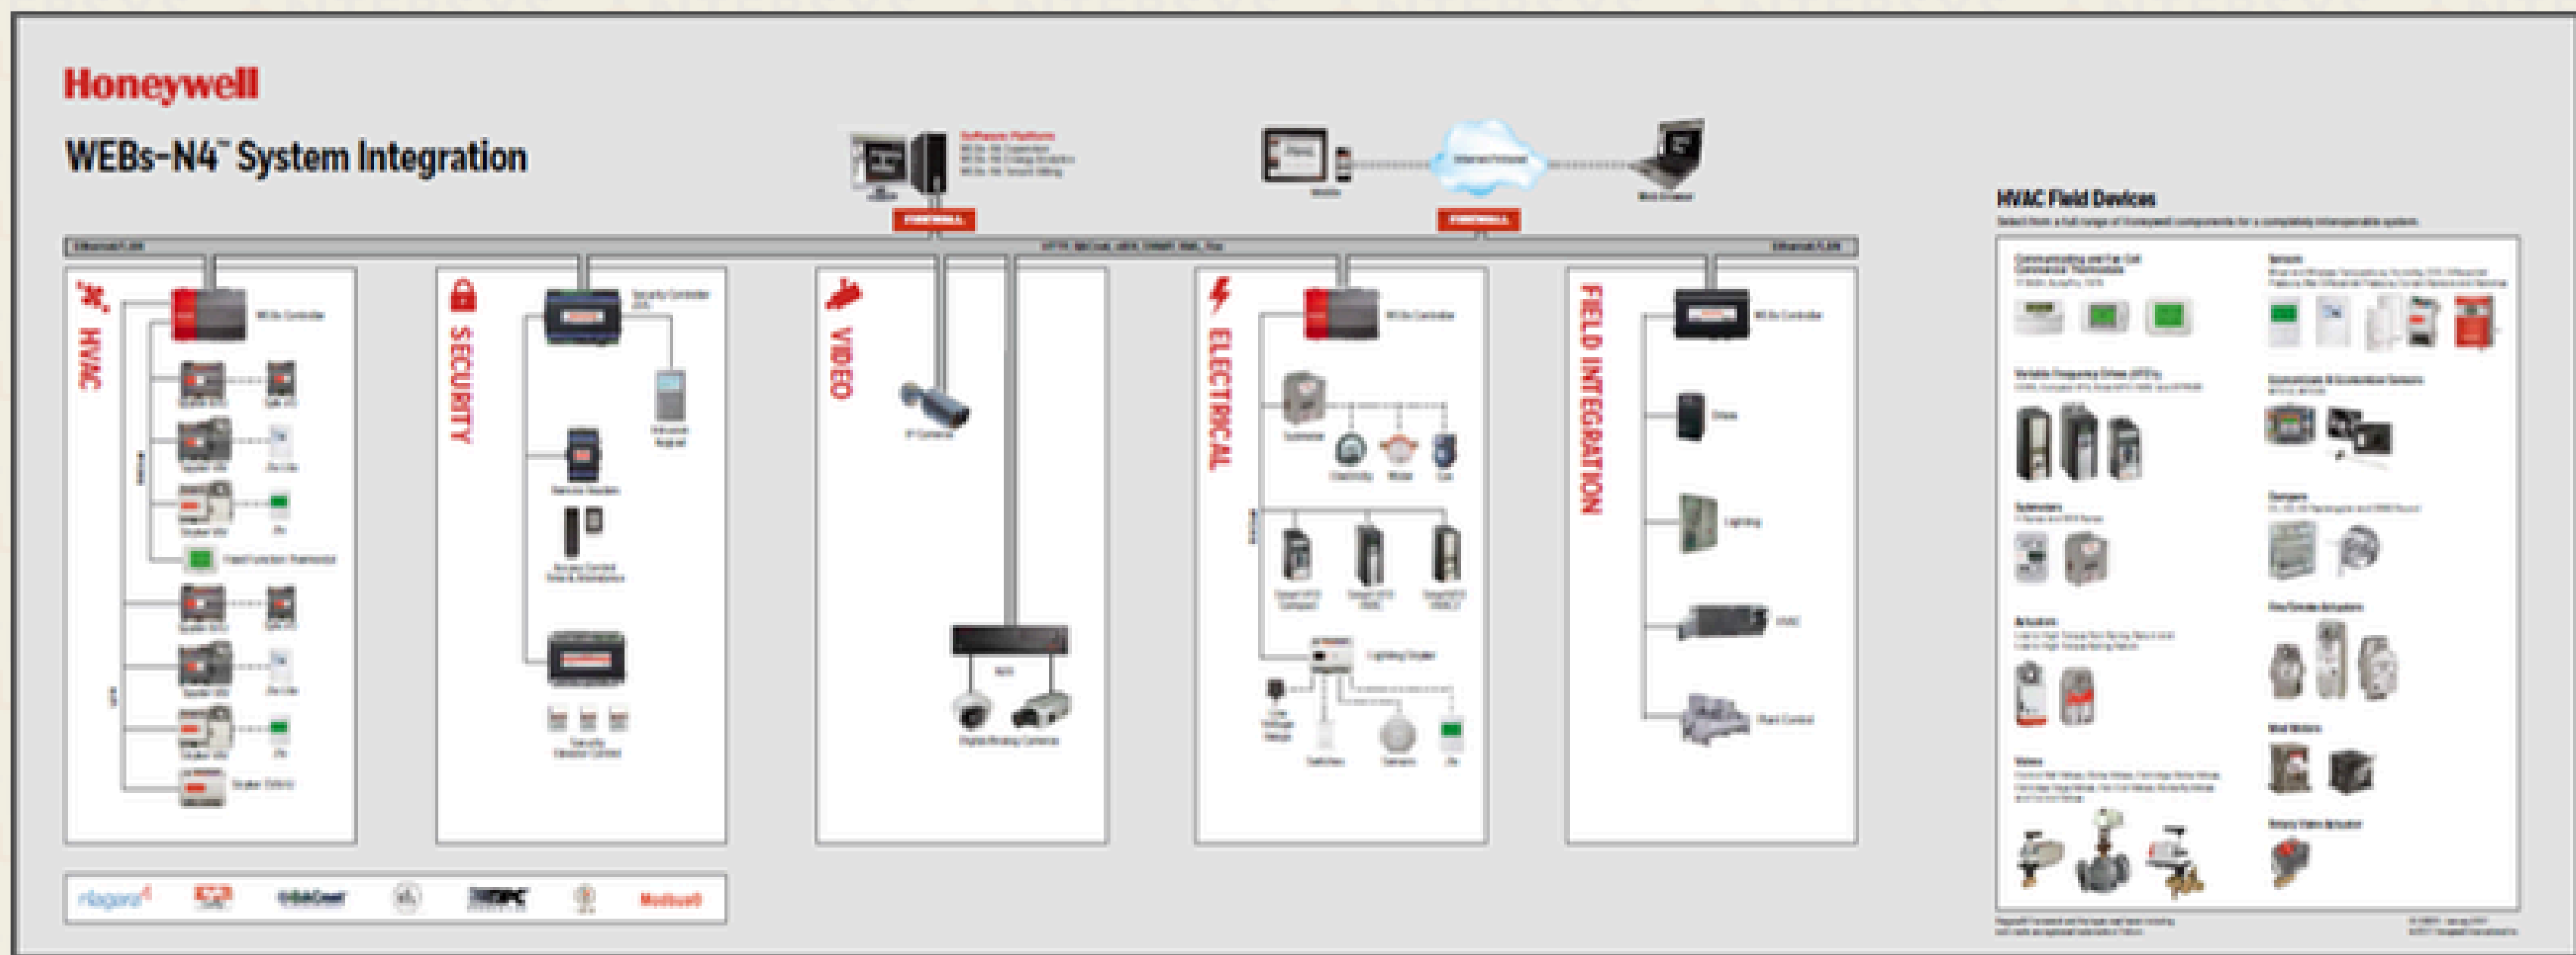

- INTEGRITY Commitment to quality, honesty, and transparency.
- INNOVATION Embracing technology for future-ready solutions.
- EXCELLENCE High-standard professional engineering services.
- PARTNERSHIP Building long-term success with clients and brands.
- RELIABILITY Delivering safety and consistent performance.

OUR EXPERTISE

We specialize in a wide range of integrated engineering and ELV solutions designed to make buildings smarter and safer.

- Building Management Systems (BMS)
- Fire Alarm & Life Safety Systems
- Security & Access Control
- CCTV & Surveillance Systems
- Audio-Visual & Conference Systems
- Room Control Unit (RCU) / Hotel Automation
- Water, Oil & Fuel Leak Detection Systems
- Parking & ANPR Vehicle Management
- Data Center Monitoring & Environmental Control
- Smart Integration & IoT Monitoring

BMS WORK STATION & CONTROLLER

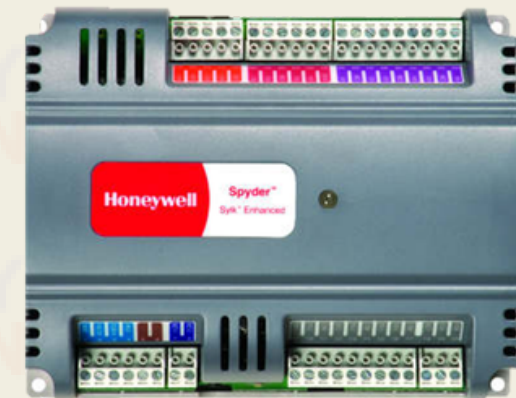

- EQUIPMENT REAL TIME MONITOR & CONTROL
- HISTORY RECORD
- DATA TRENLOG REPORT
- AUTOMATIC SCHEDULING
- GRAPHICAL USER INTERFACE WITH ANIMATION
- ALARM POP UP MESSAGE

WEB-8000 Controller

- POWERFUL WEBS-N4 HARDWARE
- MODULAR HARDWARE DESIGN FOR FAST AND EASY INSTALLATION
- TOOL-LESS INSTALLATION
- 24VAC/DC—STANDARD GLOBAL POWER SUPPLY
- STANDARD OPEN DRIVERS INCLUDED
- TI AM3352: 1000MHZ ARM® CORTEX™-A8
- 1GB DDR3 SDRAM
- REMOVABLE MICRO-SD CARD WITH 4GB FLASH TOTAL STORAGE/2GB USER STORAGE

USER INTERFACE

Cutting-edge user interface

Find, visualize data to maximize building efficiency

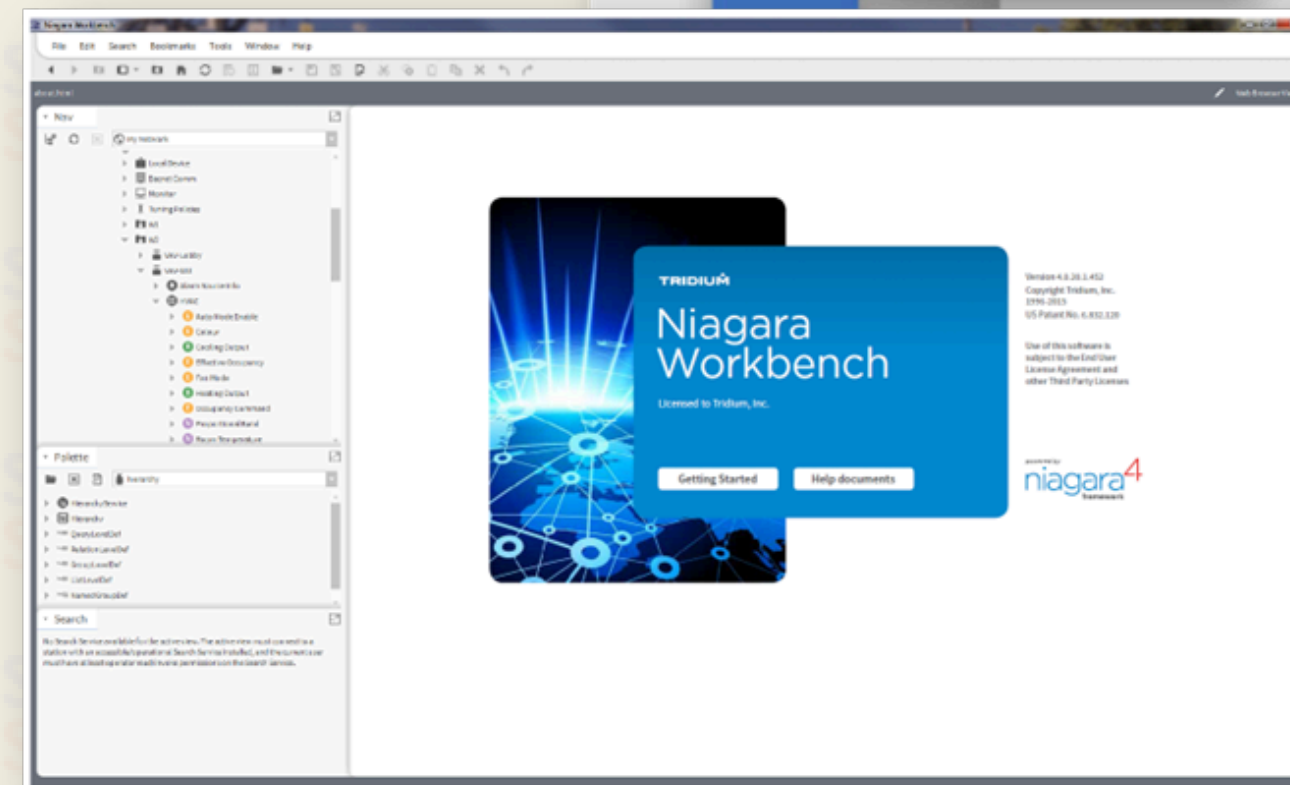

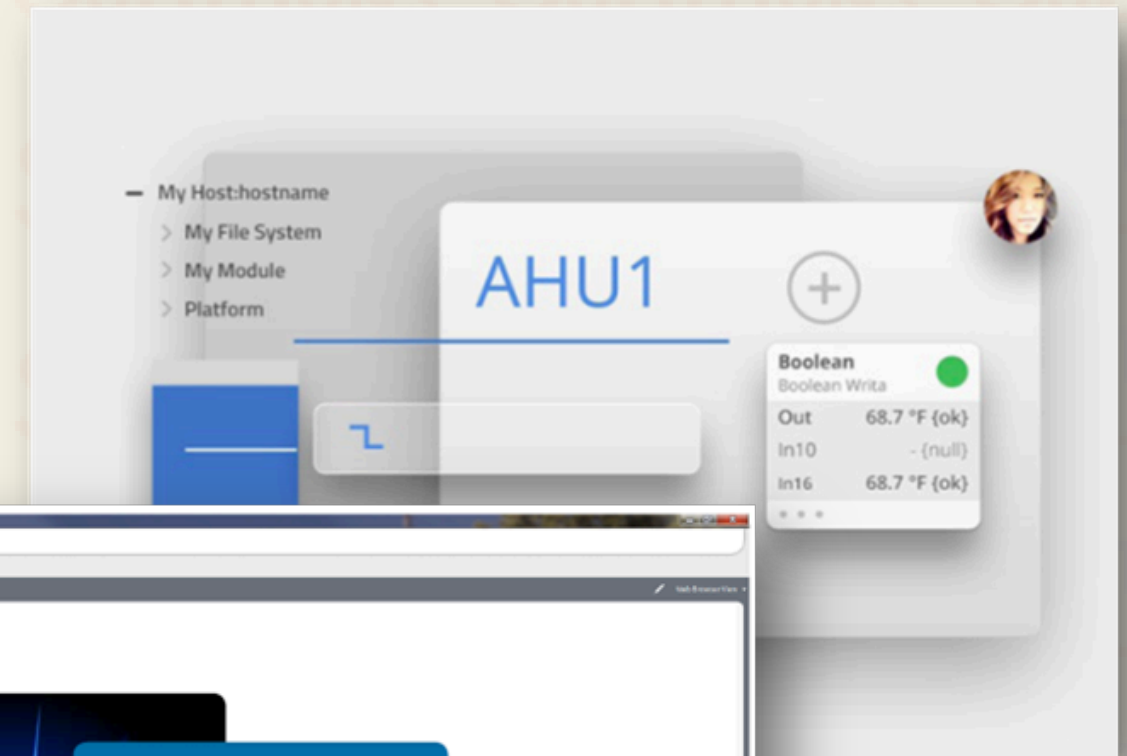

Shorter integration time

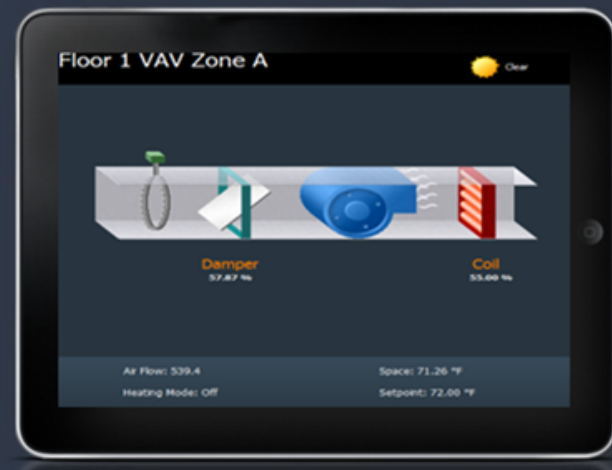

Easily create secure systems

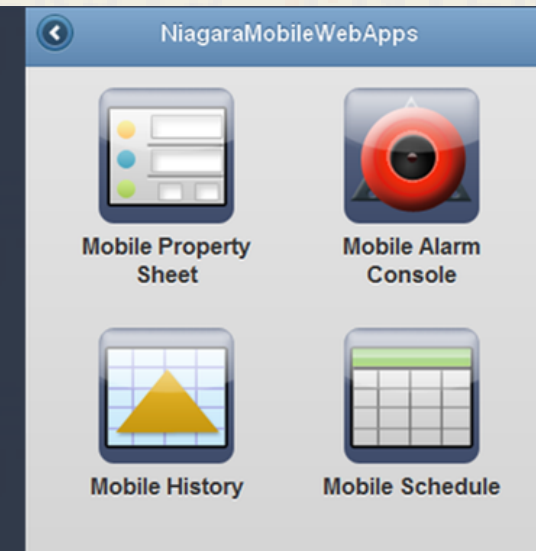

Improved developer experience

USER INTERFACE

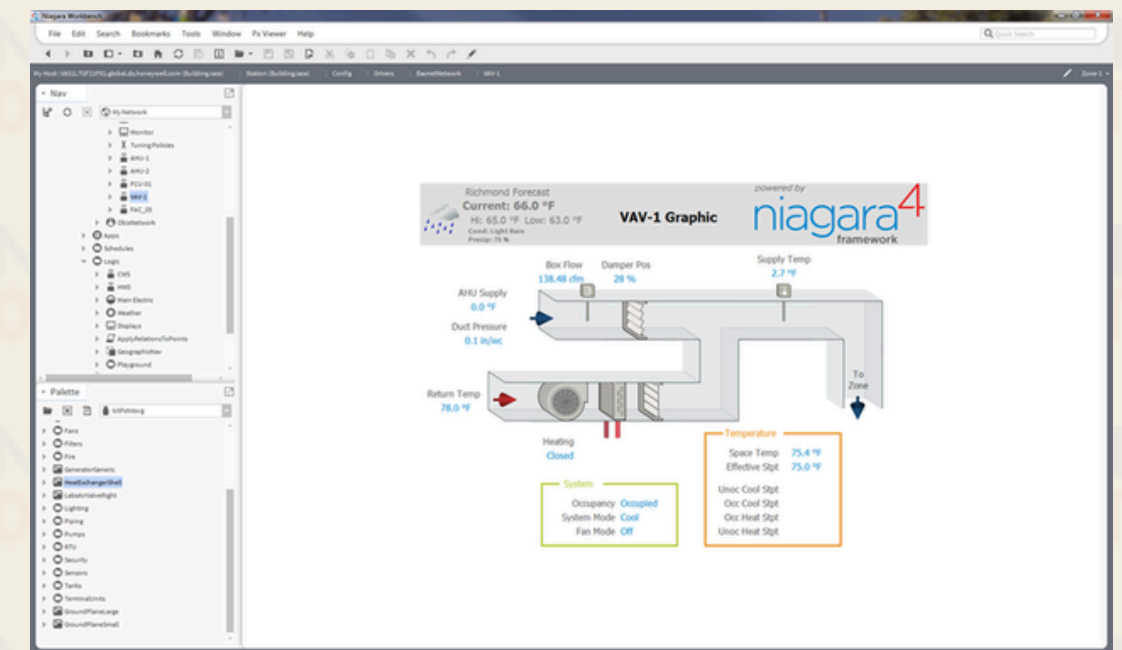

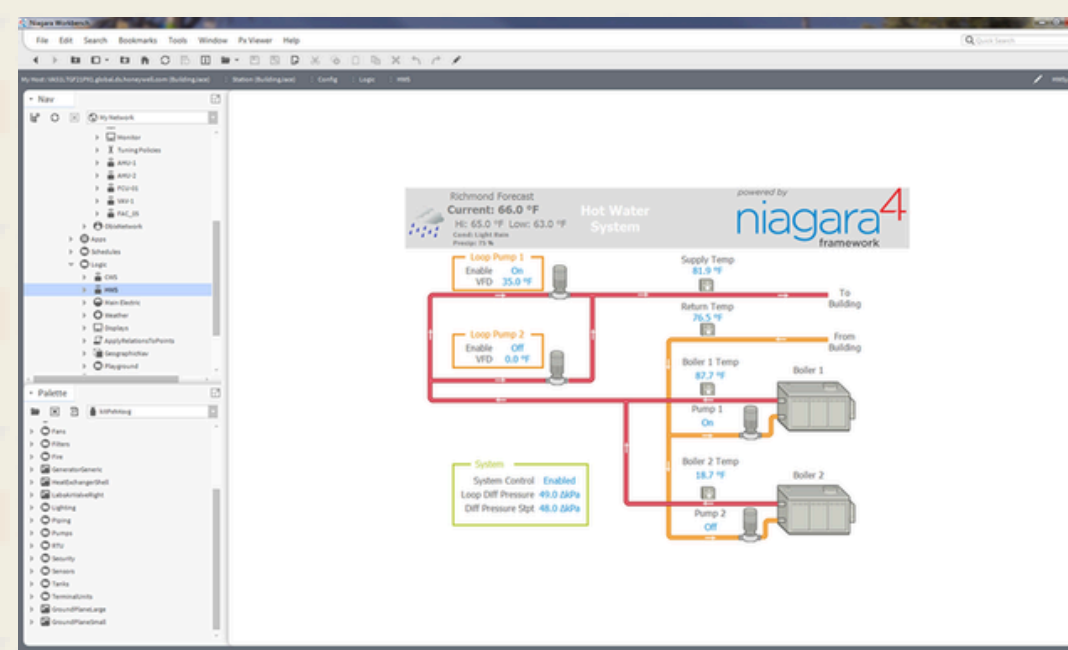

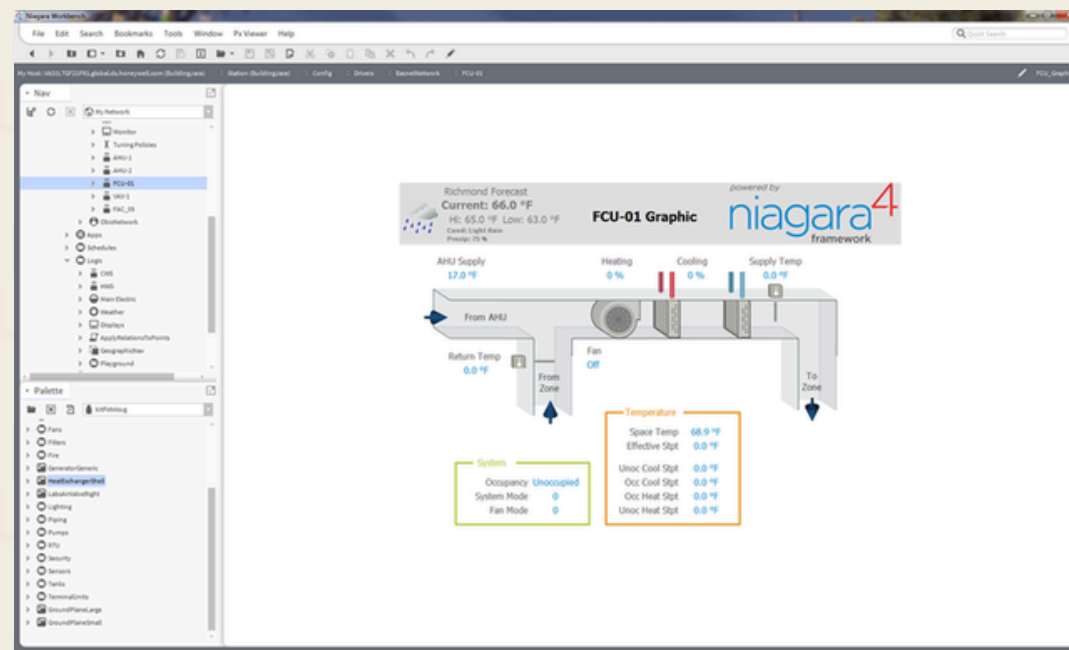

- Common design language
- Unified experience between
- desktop, tablet and phone

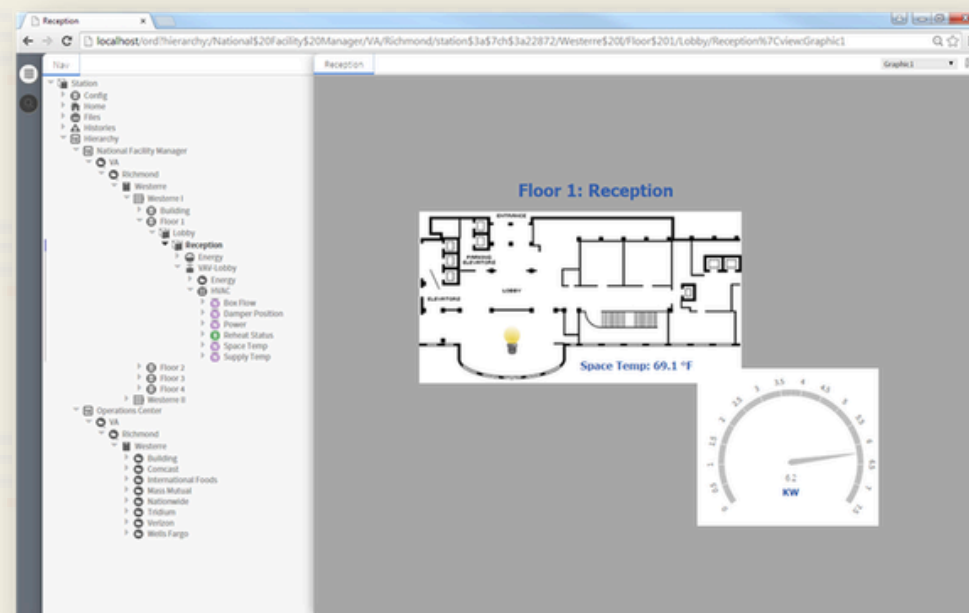

- HTML5 technology
- No native app required

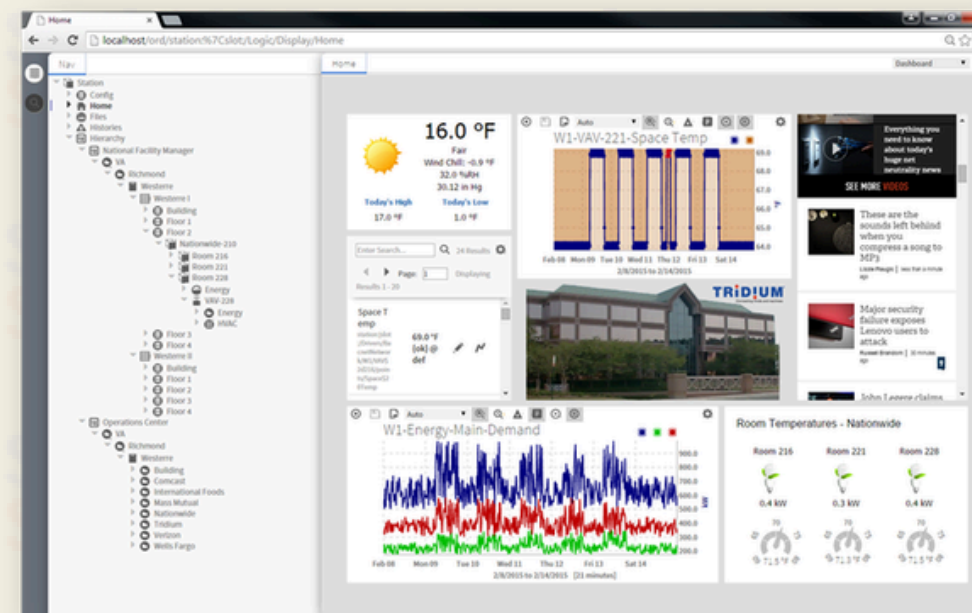

SVG Graphics Library

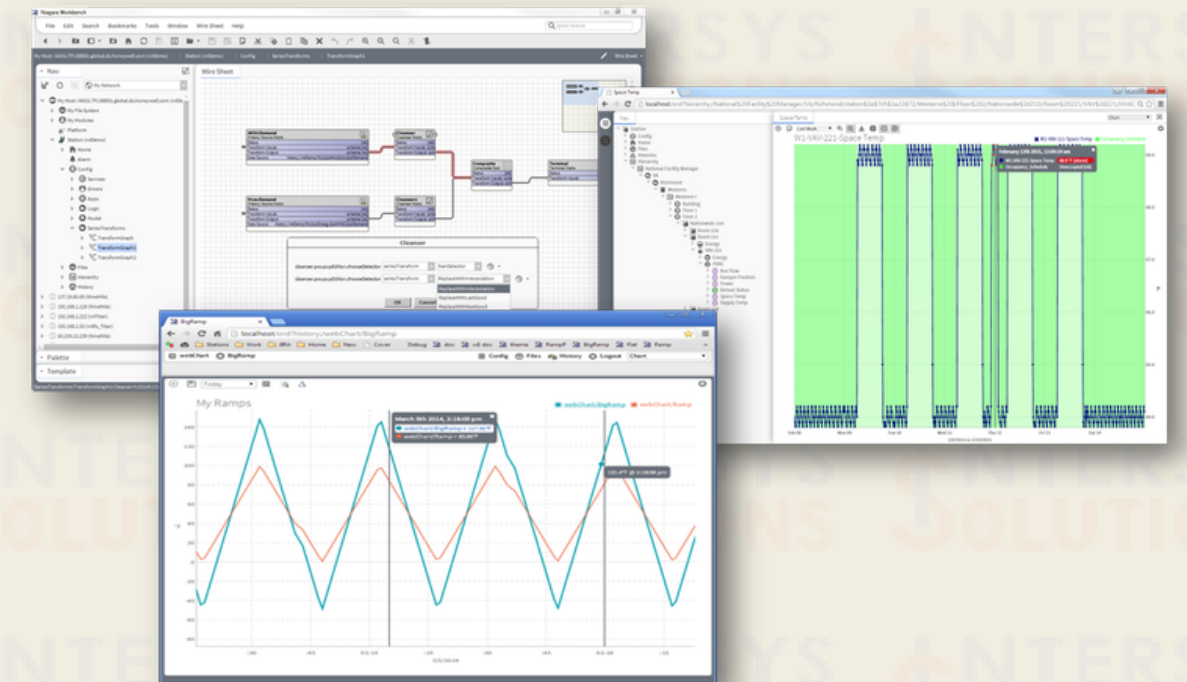

FIND AND VISUALIZE DATA

- Navigation hierarchy based on tags
 - 1.Tag relationships define structure
 - 2.Multiple hierarchies to match user role
- Devices / points auto-populate

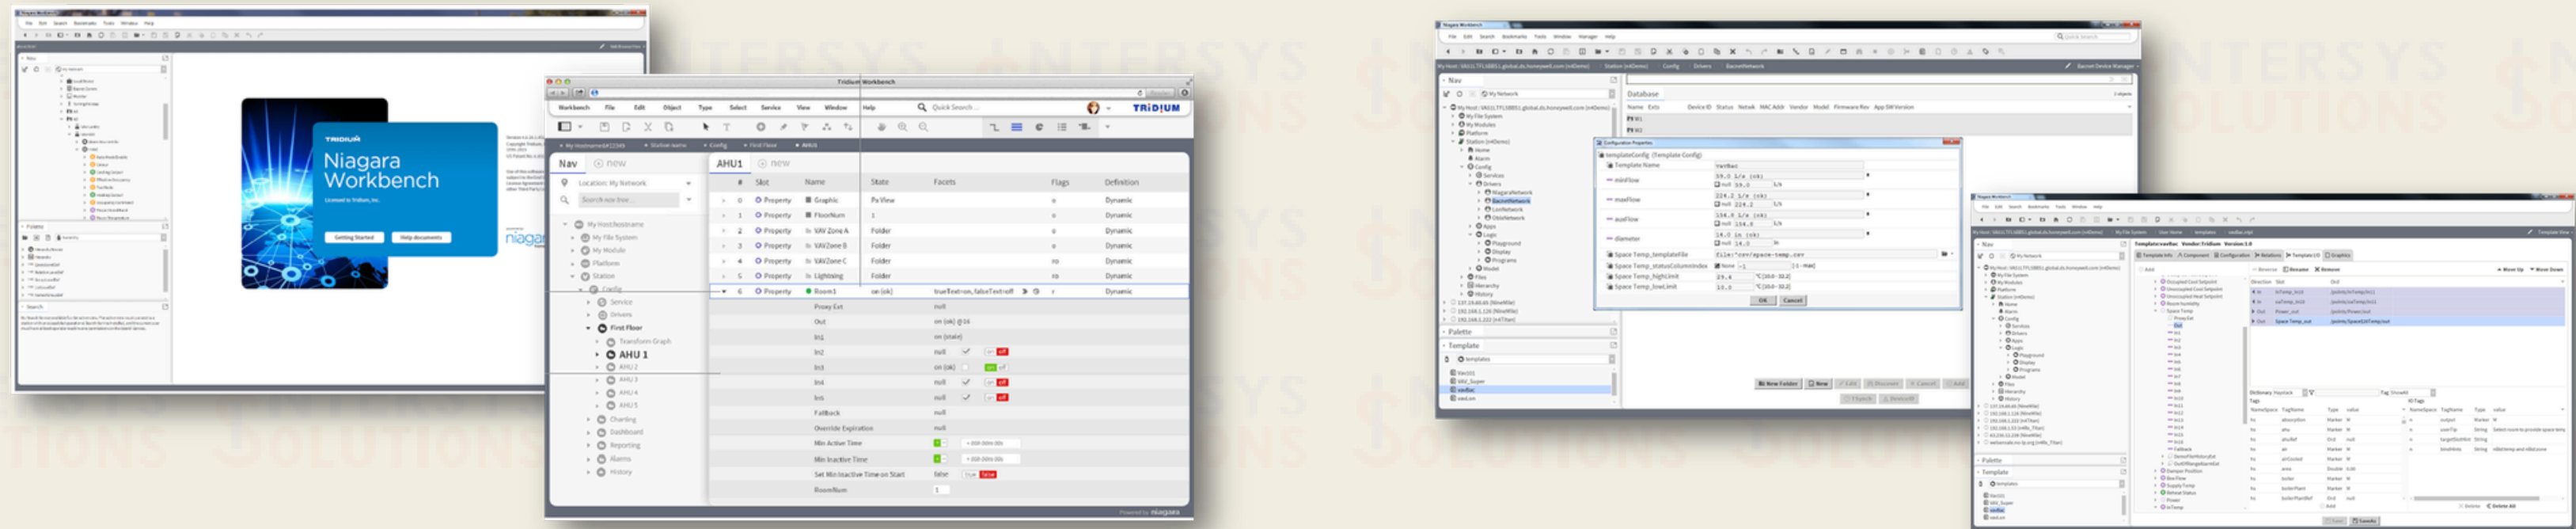

- Drag 'n' drop data onto dashboard in real time
- Supports web browser as a widget
- Users can save custom dashboards to view later

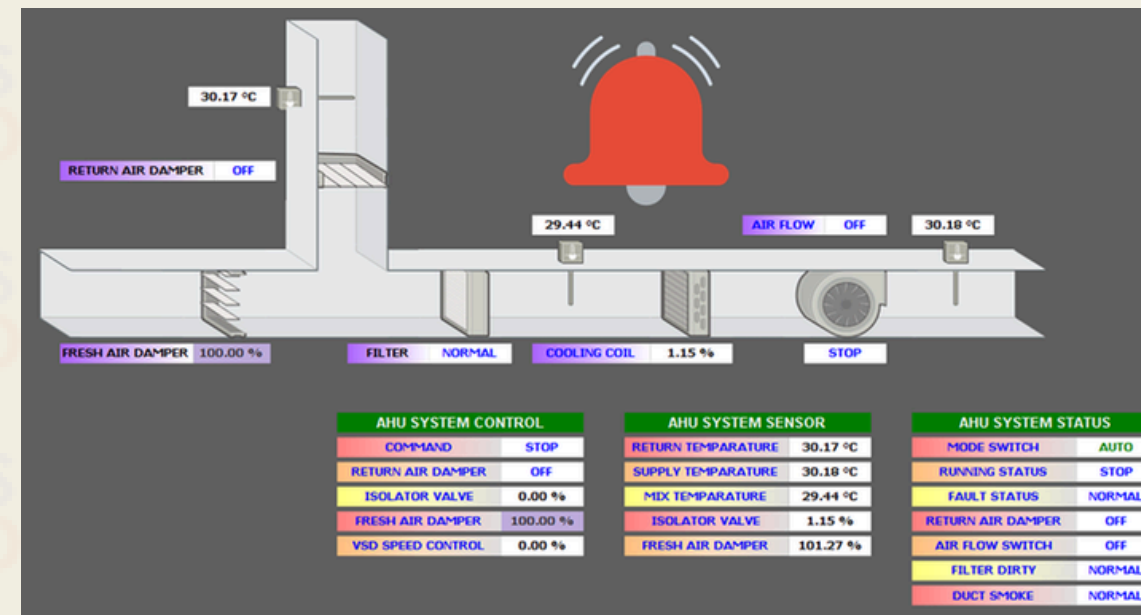

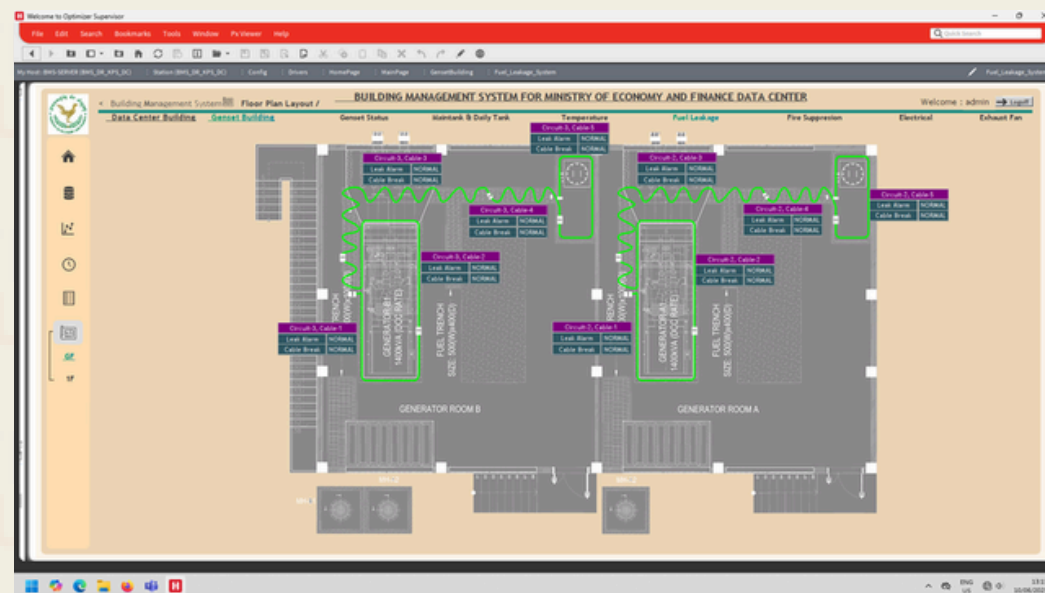

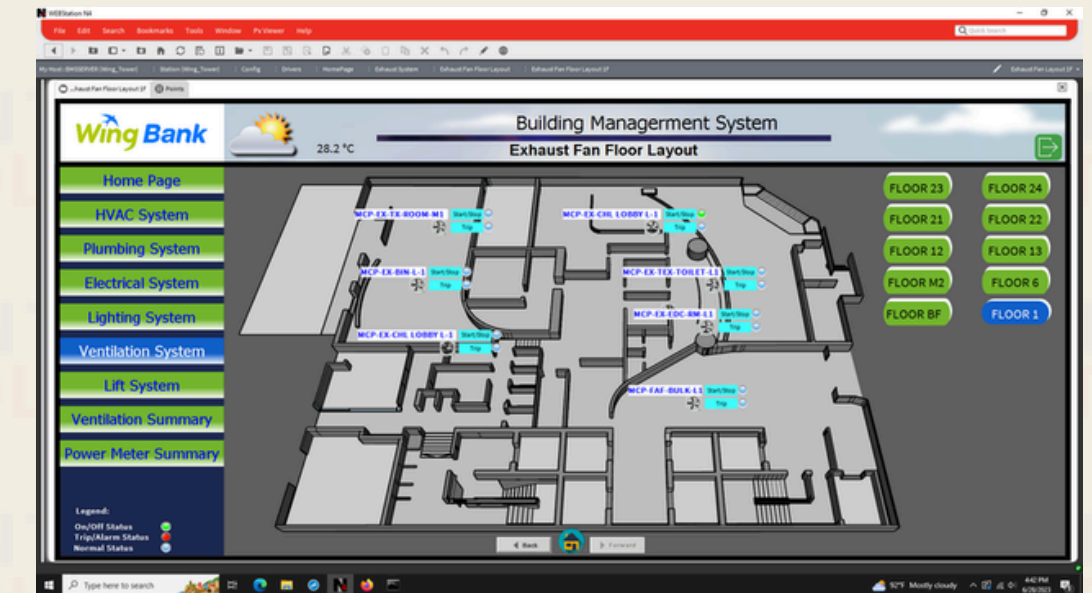

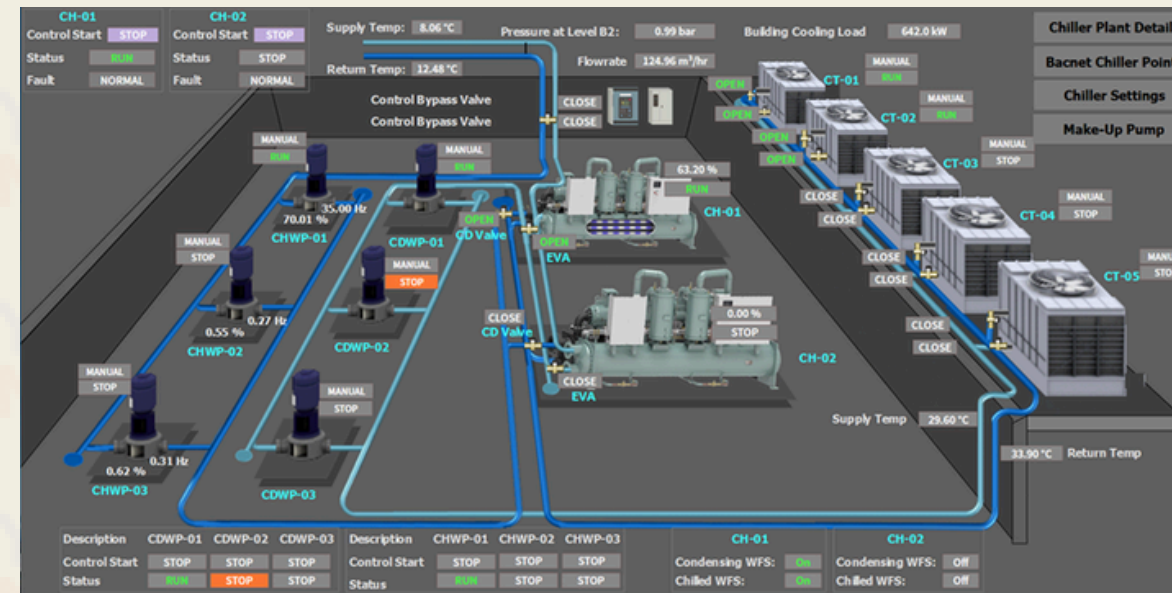

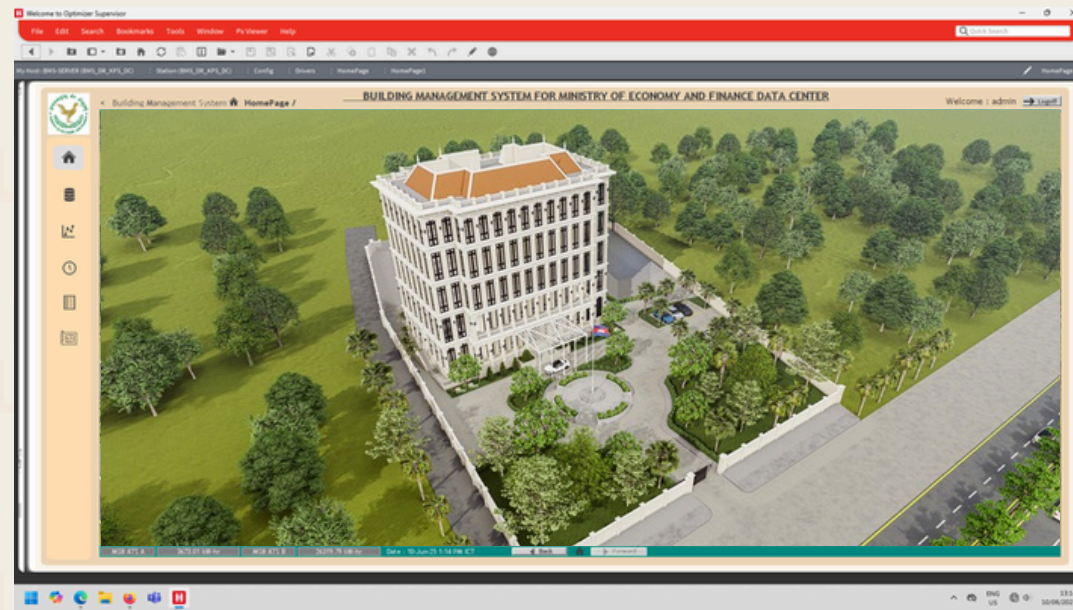

- Drag 'n' drop data onto charts
- Easily compare multiple points
- Point status visible on chart
- Save charts for later use
- Data cleanser for handling bad data

FASTER INTEGRATIONS

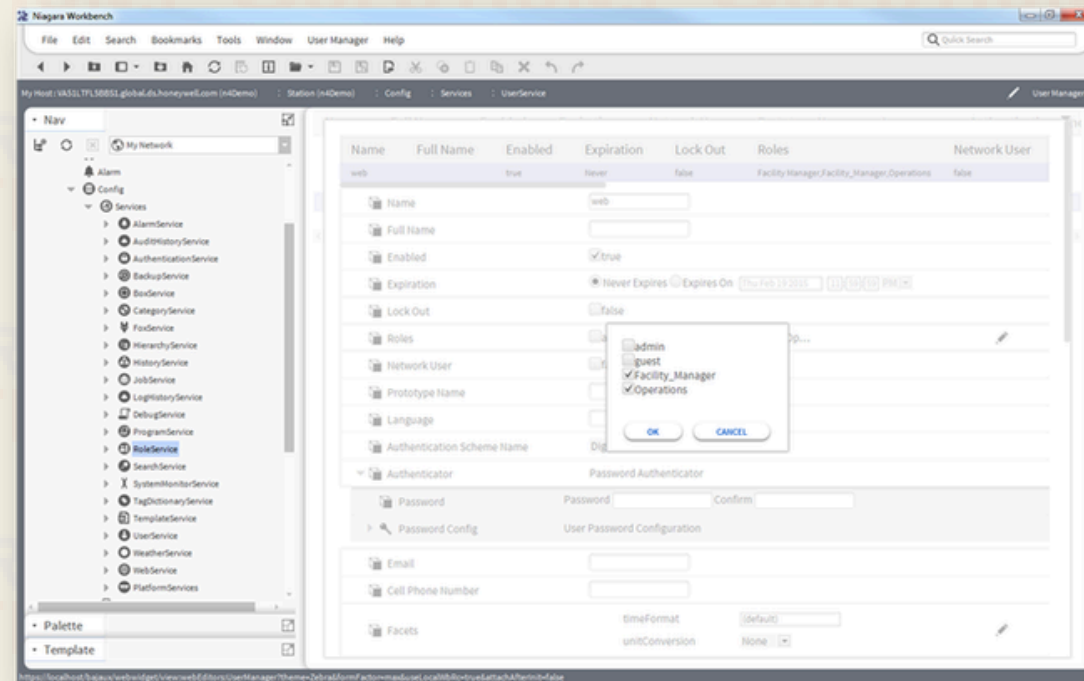

- Re-designed property sheet
- Integrated search
- Fewer clicks; more intuitive dialogs
- Important data stands out
- Create templates for common integrations
 - Tags, graphics and logic can be embedded in templates
- Deploy templates to save time
 - Template configuration wizard
 - External links suggested
- based on tags

3D ON SOFTWARE

SECURITY & EXTENSIBLE PLATFORM

- Tridium module code signing
 - Verify module author and that code hasn't been altered or corrupted
- Role-based access control
 - Manage user roles and permissions with tags
- UX framework based on open web technology
 - HTML5, CSS3, JSON, etc.
 - BajaScript v2.0
- Improved public APIs
- Historian DB API
- Queryable tags enables app community
- Improved documentation and examples:
- Tridium module code signing
 - Verify module author and that code hasn't been altered or corrupted
- Role-based access control
 - Manage user roles and permissions with tags

TECHNICAL SERVICES

Our engineering department delivers professional, end-to-end services ensuring project success from concept to reality.

- System design & technical specification
- Load calculation, layout planning, and integration design
System architecture & shop drawings
- Consultation for compliance and safety standards
- Commissioning & system testing (FAT/SAT)
- Documentation & system training
- Project coordination with MEP, IT, and construction teams

MAINTENANCE & SUPPORT

- Preventive maintenance to ensure optimal performance.
- Corrective maintenance with a rapid response team.
- Remote monitoring & troubleshooting.
- Spare parts, warranty & system upgrades.
- Operator training & technical documentation.

(After-Sales)

Our goal is to ensure long-term system stability and customer satisfaction. We offer full lifecycle support for all systems we deploy.

SOLUTIONS & PRODUCTS

We provide integrated solutions using technology from world-leading brands.

SECTORS WE SERVE

Commercial &
Hospitality

Factory

Hospitals &
Healthcare

Government
& Education

Data Centers

DEPARTMENT OF ECONOMY AND
FINANCE – KAMPONG SPEU

BMS covering access control, VESDA, fire
alarm, and fuel leak detection systems.

NOVOTEL PHNOM PENH

BMS for HVAC, plumbing, electrical, lighting,
ventilation, lift control, and power metering.

SKY VILLA

BMS for plumbing, electrical, lighting,
ventilation, lift control, and power
metering.

WING TOWER

BMS for HVAC, plumbing, electrical,
lighting, ventilation, lift control, and
power metering.

PROJECT COMPLETE

We have successfully delivered Building Management System (BMS) solutions for diverse industries, covering HVAC, plumbing, electrical, lighting, access control, fire safety, metering, and specialized systems. Below is a summary of our completed projects:

LAURELTON DIAMOND CAMBODIA

BMS for HVAC, plumbing, electrical, lighting, ventilation, and power metering.

NOVOTEL HOLIDAY PALACE

BMS for HVAC, plumbing, electrical, lighting, ventilation, lift control, and power metering.

HONGKONG LAND

BMS for HVAC, plumbing, electrical, and lighting.

E-SUN TOWER

BMS for HVAC, plumbing, electrical, lighting, ventilation, lift control, and power metering.

DATA CENTER – HATHA BANK

Control chiller system for data center cooling.

THE GATEWAY

BMS for water metering and power metering.

CHIP MONG 598 MALL

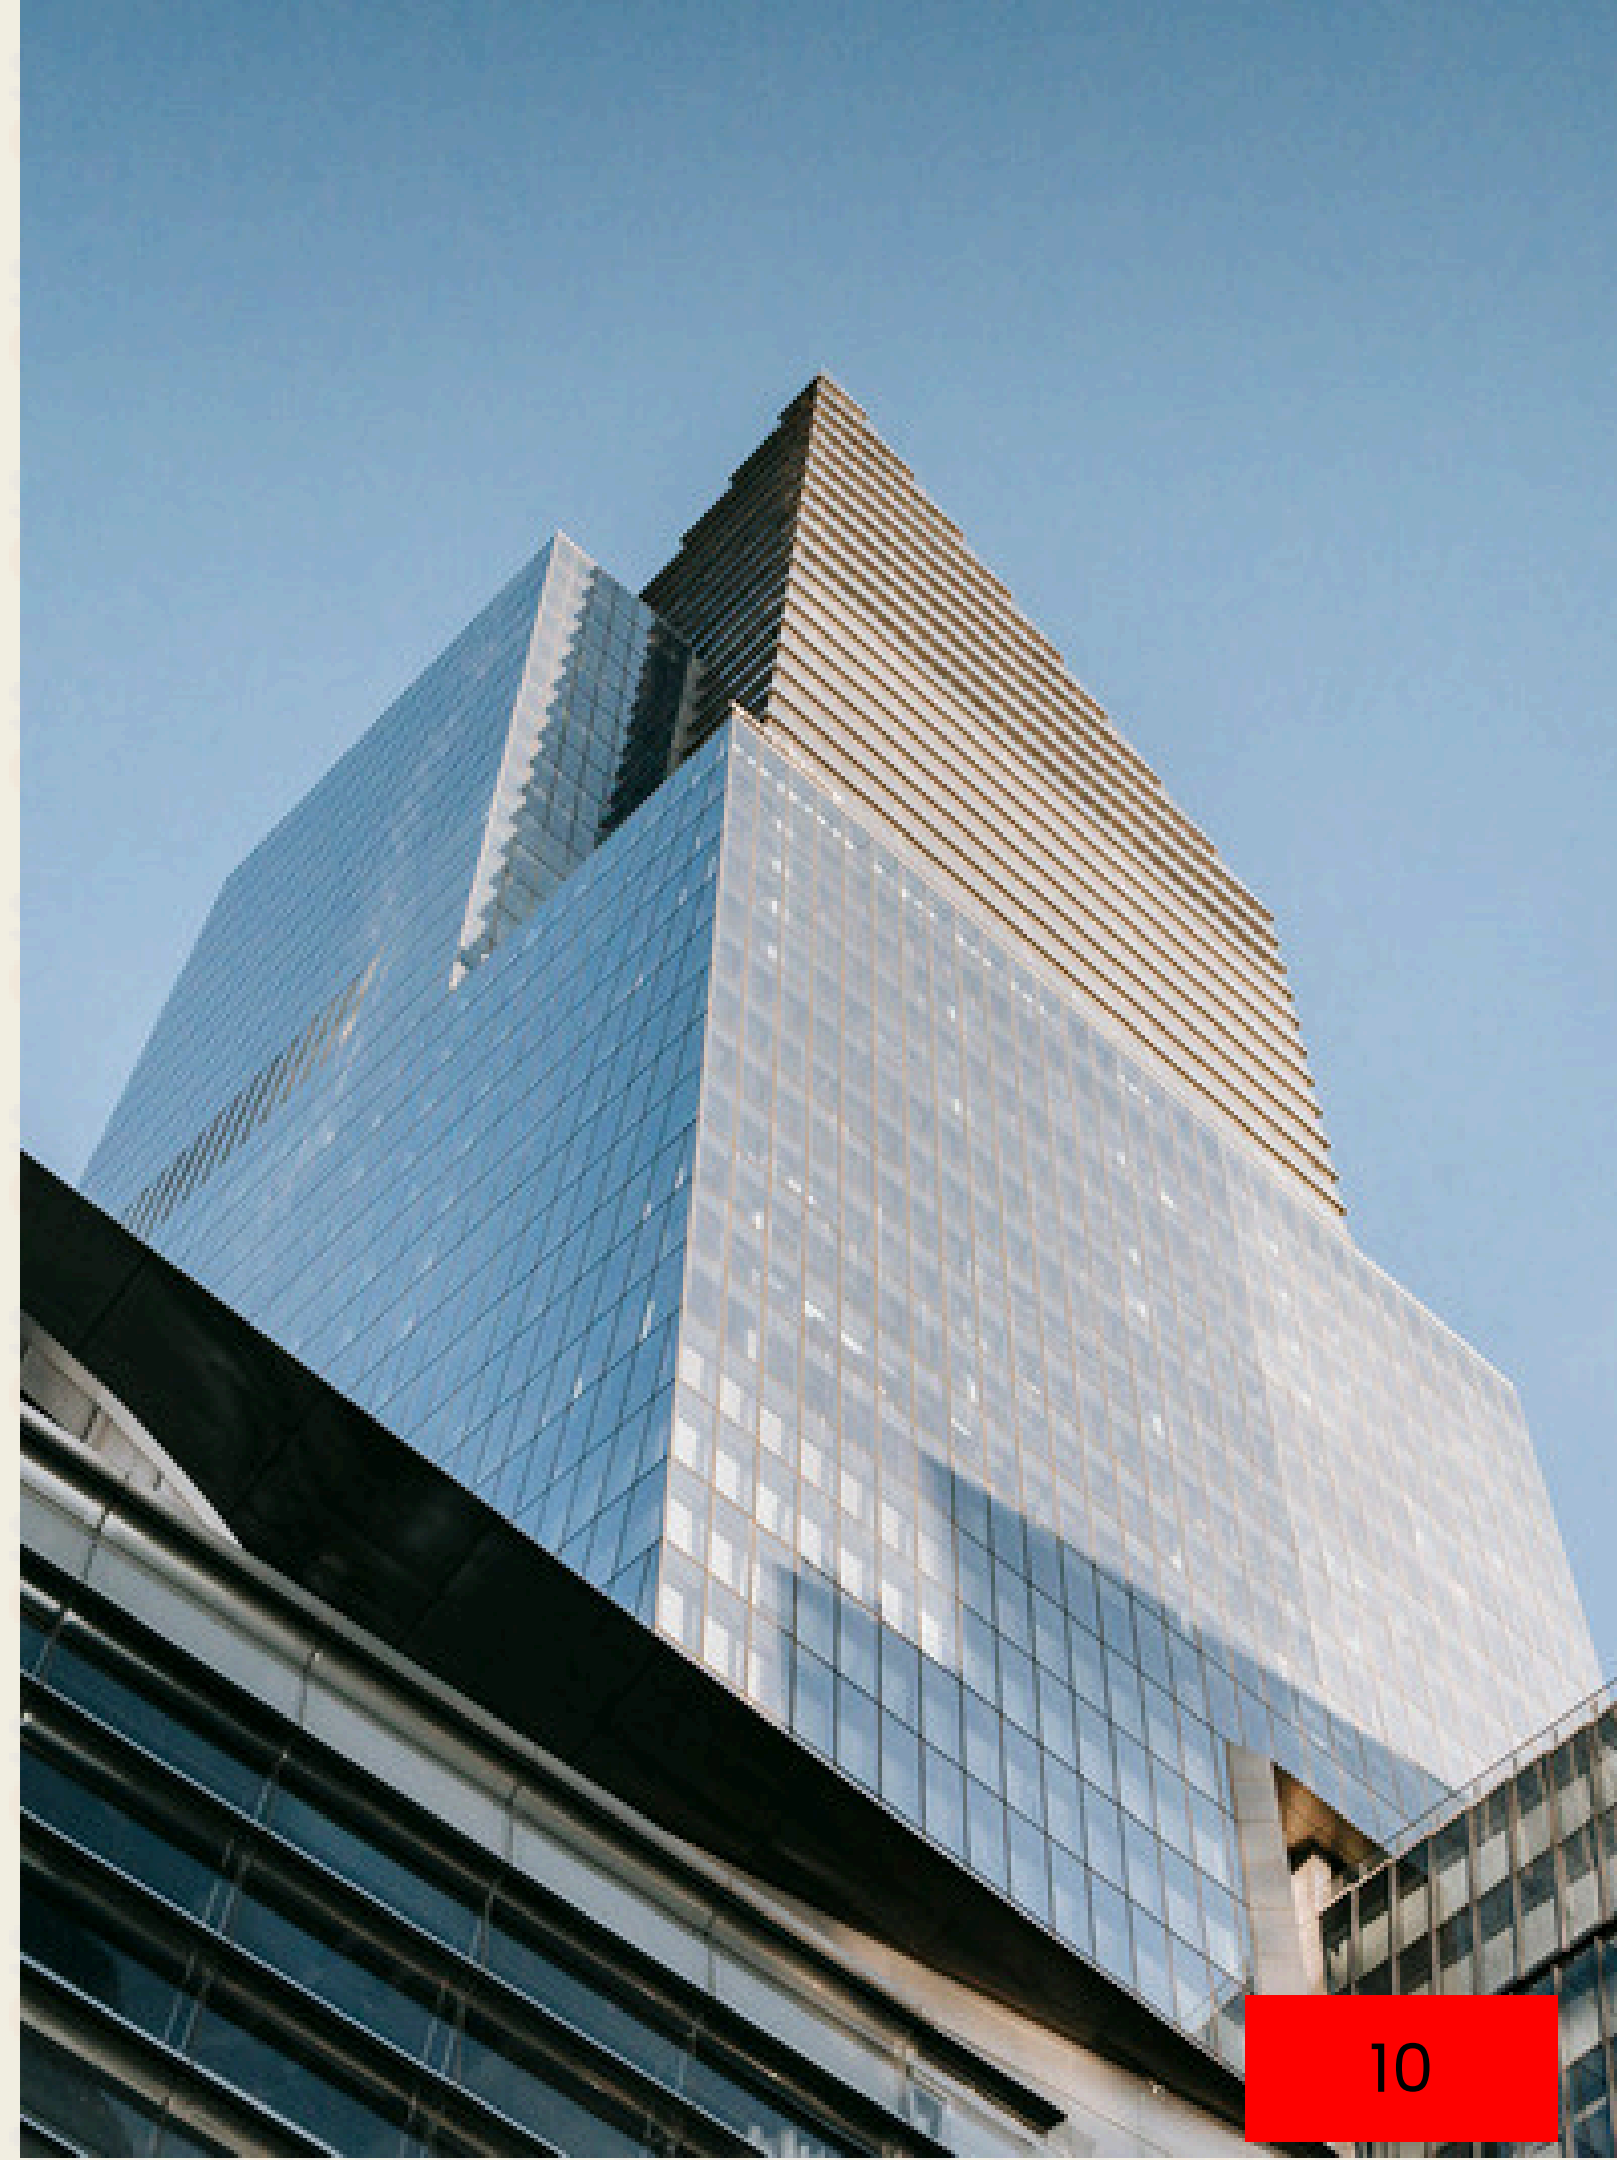

BMS covering access control, VESDA, fire alarm, and fuel leak detection systems.

PHNOM PENH INTERNATIONAL AIRPORT

Supply and integration of BMS covering HVAC, plumbing, electrical, lighting, ventilation, and power metering.
